**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claims drawn to an invention nonelected with traverse. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01. Regarding applicant's arguments with respect to the restriction requirement, these arguments have not been considered, since the restriction was made final in the previous Office Action (see Office Action dated 06/12/08).

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 4, 58, 64, 65, 69 and 70 are rejected under 35 U.S.C. 102(b) as being anticipated by Bruce (USPN 5,683,825) for reasons of record in the Office Action dated 06/12/08. Regarding this ground of rejection, applicant's arguments are addressed hereinafter.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 3, 5-69, 59-61, 66-68 and 71 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bruce in view of Wadley for reasons of record in the Office Action dated 06/12/08. Regarding this ground of rejection, applicant's arguments are addressed hereinafter.

***Response to Arguments***

6. Applicant's arguments filed 12/12/08 have been fully considered but they are not persuasive. In the response dated 12/12/08, applicant amended the claims to eliminate zirconia and zirconia alloys. Applicant then concluded that the primary reference, Bruce, failed to teach a carbide, boride, etc, as presently claimed. This argument has been considered, but is not persuasive. Bruce teaches that a carbide layer, e.g., SiC, may be formed on the bond coat (see figure 2, reference numeral 24, and accompanying text, for instance). The Examiner notes that the present claims do not require that the claimed layer is contacting the bond coat. Accordingly, applicant's arguments have been considered, but are not found to be persuasive.

***Conclusion***

7. Rejections made in the previous Office Action but not repeated herein are withdrawn in view of applicant's response filed 12/12/08.
8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
